

WATER IS A HUMAN RIGHT

Israel uses water as a weapon against Palestinians.

- Israel destroys Palestinian wells, cisterns, irrigation, and sewage systems - and prevents rebuilding.
- Israel takes Palestinian water for its own use.
- West Bank settlers enjoy swimming pools while water taps in villages and refugee camps run dry.
- Israelis use 4-5 times more water than West Bank Palestinians, whose access to water is well below the minimum standard set by the World Health Organization.
- 95% of water in the Gaza strip is unfit for human consumption.

Child in Gaza (ISM, 2011)
